

8 September 1983

MEMORANDUM FOR: See Distribution

FROM: Director, Public Affairs Office

SUBJECT: Visit by University Presidents,
12 October 1983

1. The DCI will be hosting another meeting for a small group of college and university presidents on 12 October. Previous meetings have assisted in fostering good relations between this Agency and schools of importance to components within all directorates.

2. The schedule of activities (see attached) is similar to those prepared for past sessions. The Director will greet the guests upon their arrival to be followed by the Executive Director who will present a general introduction to the Agency's mission, organization and history. We are also asking that the Deputy Directors for Intelligence, Science and Technology, and Operations, or their designees, present briefings on the activities of their respective Directorates. The briefings, and answers to questions from the Presidents, should be as candid as possible, in accordance with the SECRET clearances that will have been granted our guests for that day. Following the briefings, the Director, Deputy Director and Executive Director will join the Presidents for a final wrap-up session to answer any remaining questions from the latter and to receive their suggestions or recommendations. As indicated in the schedule, the briefers, plus a number of other Agency officials, will be expected to join our guests between 1230 and 1400 for informal discussions and a luncheon to be hosted by the Executive Director.

3. At this time, it is impossible to identify the invitees who will be able to be present but it is likely the group will number about 10 to 12 with a good mix both regionally and between public and private schools. Invitees were chosen from lists of nominees submitted by Recruitment Division, the Career Training Task Force, [redacted] the Office of Equal Employment Opportunity and components within the Directorates of Intelligence and of Science and Technology. Biographic sketches of the guests will be provided to each recipient of this memorandum prior to 12 October.

4. If any Deputy Director is unable to present his briefing, he is requested to designate a replacement and inform the Coordinator for Academic Affairs, [redacted] Similarly, anyone listed as attending the discussions and luncheon and who finds it impossible to be present should, at his earliest convenience, contact the Coordinator.
